

The only end-to-end case administration and banking solution for corporate restructuring professionals.

TrustWorks is the right tool for Receivers, Chapter 11 trustees, and other fiduciaries who oversee liquidations. If you're making do with half-solutions and software that's not designed for restructuring professionals, then you're not getting the workflow efficiency and optimization benefits that come from using a tool designed from the ground up for your needs.

TrustWorks has built-in flexibility and customization options, making it an ideal solution for a variety of fiduciaries managing liquidations, including:

- Liquidating and Post-Confirmation Chapter 11 Trustees
- Receivers
- Disbursing Agents
- Plan Administrators
- Assignees for the Benefit of Creditors

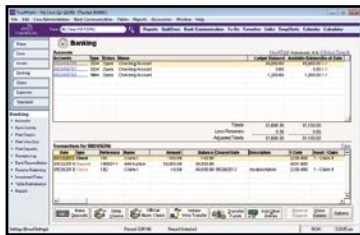

To make the most of TrustWorks, integrate it into your practice now, and be better prepared to handle any sudden increase in workload. BMS will also provide free data conversion from your existing data format to enable TrustWorks implementation at any point in the case lifecycle.
